CAREER OBJECTIVE

Motivated Software Engineer with a solid foundation in Java, REST APIs, Spring Boot, and Swagger, offering a strong blend of technical skills and practical experience. Adept at designing, developing, and maintaining scalable and efficient backend systems. Skilled in creating and consuming RESTful web services and ensuring robust API documentation using Swagger. Passionate about solving complex problems and eager to contribute to a dynamic, collaborative team environment. Demonstrates a strong understanding of software development life cycles (SDLC) and agile methodologies. Ready to leverage my skills to support the development of innovative, high-quality software products from inception to deployment and beyond.

PROFESSIONAL EXPERIENCE

08/2023 - present Karnataka, India

OmneNEST Technologies Pvt Ltd

Associate Software Engineer

- Created and maintained comprehensive documentation for software applications and APIs, ensuring clarity and ease of use for developers and end-users.
- Developed and maintained Java applications, ensuring high performance and responsiveness.
- Designed and implemented RESTful web services to facilitate communication between software applications.
- Utilized Java APIs to enhance the functionality of applications, ensuring seamless integration and operation.
- Leveraged Spring and Spring Boot frameworks to build scalable, efficient, and secure applications.
- Integrated Swagger for API documentation, enabling easier testing and development of APIs.
- · Resolved client issues with DevOps teams, ensuring minimal downtime and optimal performance of applications.
- Collaborated in the initial stages of new product development, contributing to brainstorming, planning, and early-stage building processes.

01/2023 - 05/2023 Karnataka, India

KodNest Technologies Pvt Ltd

Full Stack Intern

- Trained in Java for building robust, object-oriented applications with a focus on scalability and performance.
- Skilled in SQL for designing and managing databases, writing complex queries, and optimizing performance.

- Proficient in HTML and CSS for developing responsive and user-friendly web interfaces.
- Experienced with JavaScript for creating dynamic and interactive web applications.
- Knowledgeable in Basic Data Structures (e.g., arrays, linked lists, stacks, queues) for efficient data management and problem-solving.

SKILLS

PERSONAL PROJECTS

02/2023 Netflix-Clone

DEMO: https://netclone-chammu39.netlify.app/

- Created a front-end application modeled after Netflix using React.js and CSS, replicating the design and user experience of the well-known streaming service.
- Integrated The MovieDB API to fetch and display movie data, including details such as titles, descriptions, and ratings.
- Utilized the YouTube npm package to embed trailers and enhance user experience with interactive video content.
- Focused on creating a responsive, user-friendly interface that mimics Netflix's design and functionality.
- Technologies Used: React.js, HTML, CSS

EDUCATION

2019 – 2023 P.A.College of Engineering, Mangalore

Karnataka, India Bachelor in Engineering (B.E)

CGPA: 8.36

2017 – 2019 St Aloysius PU College

Karnataka, India PUC

Percentage: 77%

2017 A J I English School

Kerala, India Secondary Class

CGPA: 9.4

DECLARATION

I hereby affirm that the above-written particulars are true to the best of my knowledge and ability.
